More for Less.

More flexibilty. More features. More labeling functions.
More premium-class presets. And for the first time – all for less cost
than comparable price computing scales with printers.

Three Configurations:
Choose from hanging, remote-scale base or countertop models
to fit any application in your store.

Two Communication Choices:
Native Ethernet or optional RF connectivity enables any BC-4000
scale to be added to your existing network – helping you keep total
control of all scales in the store.
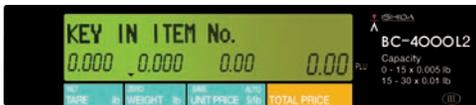

Programmability Options:
Master-satellite programmability and compatibility to product
management software ensures PLU and tare weight consistency
throughout your operation.

Flexible Presets:
Set preset buttons to represent PLUs, container tare values, label
formats, images and logos. The BC-4000 series has extraordinary
power at an exceptional value.

Three Different Displays Available:

LCD, alphanumeric:
BC-4000L2 and L2H

VFD, numeric:
BC-4000S

LED, numeric:
BC-4000E
